How to sign in and sign out

Sign in to Tenant Manager

You access the Tenant Manager by entering the URL for the tenant into the address bar of a [supported web browser](#).

What you'll need

- You must have your login credentials.
- You must have a URL for accessing the Tenant Manager, as supplied by your grid administrator. The URL will look like one of these examples:

```
https://FQDN_or_Admin_Node_IP/
```

```
https://FQDN_or_Admin_Node_IP:port/
```

```
https://FQDN_or_Admin_Node_IP/?accountId=20-digit-account-id
```

```
https://FQDN_or_Admin_Node_IP:port/?accountId=20-digit-account-id
```

The URL always contains either the fully qualified domain name (FQDN) or the IP address used to access an Admin Node, and could optionally also include a port number, the 20-digit tenant account ID, or both.

- If the URL does not include the tenant's 20-digit account ID, you must have this account ID.
- You must be using a [supported web browser](#).
- Cookies must be enabled in your web browser.
- You must have specific access permissions.

Steps

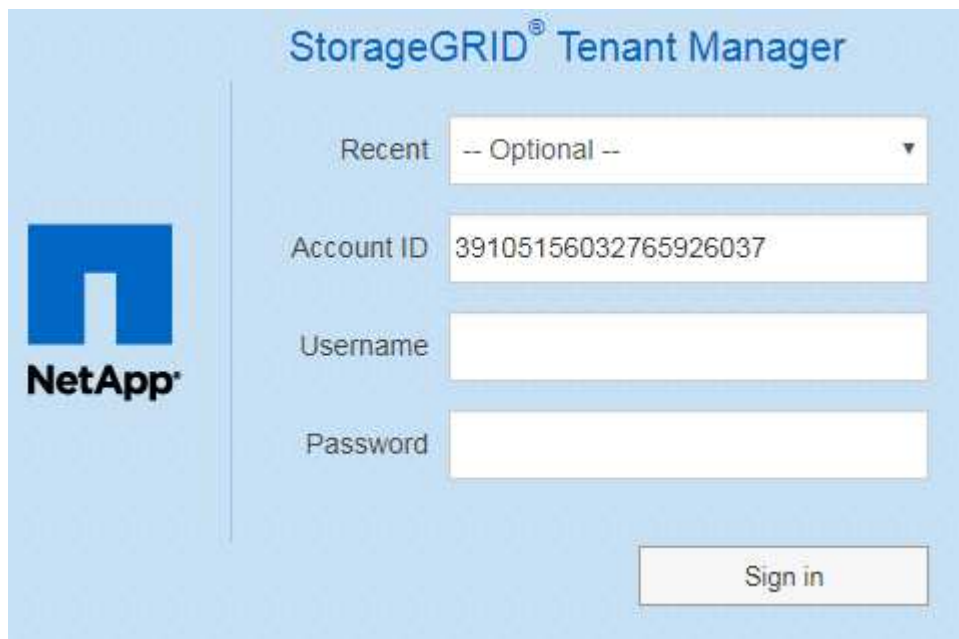

1. Launch a [supported web browser](#).
2. In the browser's address bar, enter the URL for accessing Tenant Manager.
3. If you are prompted with a security alert, install the certificate using the browser's installation wizard.
4. Sign in to the Tenant Manager.

The sign-in screen that you see depends on the URL you entered and whether your organization is using single sign-on (SSO). You will see one of the following screens:

- The Grid Manager sign-in page. Click the **Tenant Login** link in the upper right.

- The Tenant Manager sign-in page. The **Account ID** field might already be completed, as shown below.

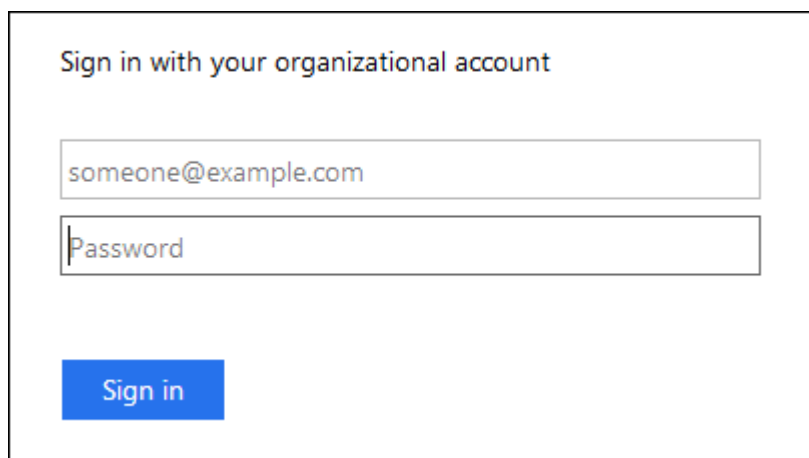

The image shows the StorageGRID Tenant Manager sign-in page. On the left is the NetApp logo. The main area has a light blue background. At the top, it says "StorageGRID® Tenant Manager". Below this, there is a "Recent" dropdown menu with "-- Optional --" selected. Underneath is the "Account ID" field, which contains the 20-digit number "39105156032765926037". Below that are "Username" and "Password" fields. At the bottom right is a "Sign in" button.

- If the tenant's 20-digit account ID is not shown, select the name of the tenant account if it appears in the list of recent accounts, or enter the account ID.
- Enter your username and password.
- Click **Sign in**.

The Tenant Manager Dashboard appears.

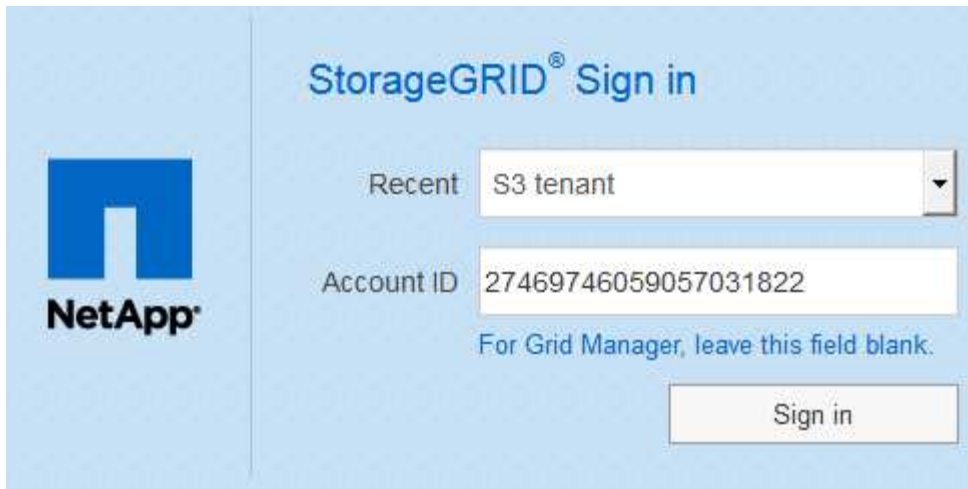

- Your organization's SSO page, if SSO is enabled on the grid. For example:

The image shows an SSO sign-in page. It has a white background with a black border. At the top, it says "Sign in with your organizational account". Below this are two input fields: the first contains "someone@example.com" and the second is labeled "Password". At the bottom left is a blue "Sign in" button.

Enter your standard SSO credentials, and click **Sign in**.

- The Tenant Manager SSO sign-in page.

The image shows the StorageGRID Sign in page. On the left is the NetApp logo. On the right, the title 'StorageGRID® Sign in' is at the top. Below it is a 'Recent' dropdown menu showing 'S3 tenant'. Underneath is an 'Account ID' field containing '27469746059057031822'. A note below the field says 'For Grid Manager, leave this field blank.' At the bottom right is a 'Sign in' button.

- i. If the tenant's 20-digit account ID is not shown, select the name of the tenant account if it appears in the list of recent accounts, or enter the account ID.
- ii. Click **Sign in**.
- iii. Sign in with your standard SSO credentials on your organization's SSO sign-in page.

The Tenant Manager Dashboard appears.

5. If you received an initial password from someone else, change your password to secure your account. Select **username** > **Change Password**.

If SSO is enabled for the StorageGRID system, you cannot change your password from the Tenant Manager.

Sign out of Tenant Manager

When you are done working with the Tenant Manager, you must sign out to ensure that unauthorized users cannot access the StorageGRID system. Closing your browser might not sign you out of the system, based on browser cookie settings.

Steps

1. Locate the username drop-down in the top-right corner of the user interface.

2. Select the username and then select **Sign Out**.

- If SSO is not in use:

You are signed out of the Admin Node. The Tenant Manager sign in page is displayed.

If you signed into more than one Admin Node, you must sign out of each node.

- If SSO is enabled:

You are signed out of all Admin Nodes you were accessing. The StorageGRID Sign in page is displayed. The name of the tenant account you just accessed is listed as the default in the **Recent Accounts** drop-down, and the tenant's **Account ID** is shown.

If SSO is enabled and you are also signed in to the Grid Manager, you must also sign out of the Grid Manager to sign out of SSO.
